

**The National Psychology Summit is
being held on Friday 4/25/25 from
12:30-5:30pm EST.**

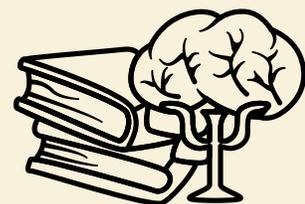

**The event brings together people with
an interest in psychology for an
afternoon of keynotes, research talks,
Cafe Conversations (talks about what
a specific job in psychology is like), and
a student poster session.**

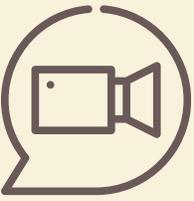

**The event is held via Zoom to
allow our community access to
this event without the cost of
travel and lodging usually
associated with a professional
conference.**

**Dr. Sean Ransom (LSU Behavioral Health
Center, Department of Psychiatry and the
Cognitive Behavioral Therapy Center of
New Orleans) will be giving an exciting
keynote entitled, "Therapy in the Age of
Chatbots: The Shaky Promise of AI-
Assisted Psychotherapy". Our other talks
will be shared soon!**

**The National Psychology
Summit: Friday 4/25/25 from
12:30-5:30pm EST.**

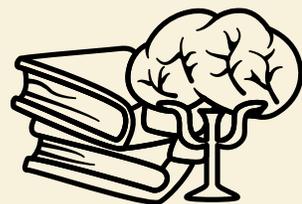

**The Summit will feature an
asynchronous student poster
session with posters on Research,
Psychology in the Humanities, and
the History of Psychology.**

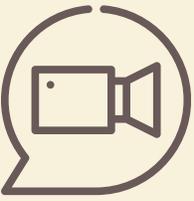

**Students can find out more
and submit their posters at
